Hello, Content Marketers,

It is our pleasure to present the fifth annual Content Marketing in Australia: Benchmarks, Budgets, and Trends report.

As Australian marketers continue to grow in experience and content marketing maturity, so too does their overall success with the approach.

In addition, many who are just starting out appear to have the right idea: 71% whose companies are in the young/first steps phase agree that their company is focused more on building long-term relationships than on getting quick results from content marketing.

Our hope is that your company views content marketing as an opportunity to build an audience and create ongoing value—versus just another method to generate leads and sales. The right vision—along with a documented content marketing strategy and a strong commitment to content marketing—are the first steps toward tangible business results.

Yours in content,

Joe & Jodie

METHODOLOGY/DEMOGRAPHICS

Content Marketing in Australia 2017: Benchmarks, Budgets, and Trends was produced by Content Marketing Institute in partnership with the Association for Data-driven Marketing and Advertising (ADMA) and sponsored by LinkedIn Marketing Solutions.

The seventh annual content marketing survey, from which the results of this report were generated, was mailed electronically to a sample of marketers using lists from Content Marketing Institute, ADMA, MarketingProfs, and WTWH Media.

A total of 2,562 recipients from around the globe—representing a full range of industries, functional areas, and company sizes—completed the survey during July and August 2016. This report presents the findings from the 119 respondents who indicated they were for-profit marketers in Australia (65% B2B, 13% B2C, and 22% both B2B+B2C).

Additional reports based on the annual survey are available at www.contentmarketinginstitute.com/research. Special thanks to MarketingProfs for their assistance with the annual survey and the B2B North America and B2C North America reports.
Thanks to all the survey respondents and survey distribution partners who made this survey possible.
