Greetings Marketers,

Welcome to B2B Content Marketing 2018: Benchmarks, Budgets, and Trends—North America. Our latest research indicates B2B marketers are finding content marketing success as they explore ways to work more creatively and build their audiences.

Content marketing is no longer the shiny new object. Those who have caught on are no longer asking “should we do this,” but rather “how do we really dig in and get results?” One of the most convincing pieces of evidence of this maturation? We saw an 18% year-over-year increase in respondents who say they are focused on using content marketing to build their audience (one or more subscriber bases). And that’s what differentiates content marketing from other forms of marketing—it’s intent is to offer valuable information so people want to hear from your business … so they subscribe to your content because they are interested in it.

Read on for all the findings from our annual survey and consider how your organization stacks up against your peers. To take your content marketing to the next level, check out the resources on the last page of this report.

METHODOLOGY/DEMOGRAPHICS

B2B Content Marketing 2018: Benchmarks, Budgets, and Trends—North America was produced by Content Marketing Institute and MarketingProfs and sponsored by Brightcove.

The eighth annual content marketing survey, from which the results of this report were generated, was mailed electronically to a sample of marketers using lists from Content Marketing Institute, MarketingProfs, The Association for Data-driven Marketing & Advertising (ADMA), WTWH Media, and Technology for Marketing (TFM).

A total of 2,190 recipients from around the globe—representing a full range of industries, functional areas, and company sizes—responded to the survey during June and July 2017. This report presents the findings from the 870 respondents who indicated their organization is for-profit in North America, primarily selling products/services to businesses (B2B).

Note: The B2B content marketers referred to in the base lines (and bullet points) in this report are the survey respondents who indicated their organization uses content marketing.
Content Marketing Institute and MarketingProfs thank all the survey respondents and survey distribution partners who made this research possible.
